FIRES TWO SHOTS
AT PARIS JURIST

PARIS, Friday.—Paris is suffering just now from a series of daring crimes, including murders, attempted murders and robberies with violence. Another was added to the list this afternoon when a man named Isaac made a bold attack on Judge Henri Dille, president of the Tribunal of First Instance of the Seine.

The man waited in front of the Judge's house as he came out and fired two shots at him, without, however, hitting him. Isaac soon afterward surrendered to the police.

It is believed that his attack was due to revenge, the court recently having granted a divorce to his wife.

FRENCH REPULSE
MOROCCAN REBELS

Small Garrison at Sefrou in Eight Hour Battle with Horde of Tribesmen.

TANGIER, Friday.—A large force of Moroccan tribesmen, according to a wireless despatch received from Fez to-day, attacked the town of Sefrou, a day's journey to the south of the capital. The garrison, which is under the command of French officers, made a gallant defense, beating off the tribesmen again and again, although they were far outnumbered.

The tribesmen continued to make wild rushes, but after eight hours' fighting the little garrison finally succeeded in repulsing them and driving them to the desert, leaving fifty dead on the field. The garrison lost five killed and fifteen wounded.

Major Bremont leaves Fez to-day with reinforcements from the Sultan's army to assist the garrison of Sefrou and to pursue the rebel tribesmen.

POWERS WORK FOR
PEACE IN TRIPOLI

Germany Is Among Those Active in Seeking Armistice Between Italy and Turkey.

BERLIN, Friday.—Several of the European Powers, including Germany, have been sounding both Rome and Constantinople as to the possibility of an armistice between Turkey and Italy, which might pave the way for peace. The results of these efforts have hitherto been indefinite.

Amsterdam and British newspapers yesterday reported that negotiations were proceeding with a view to bringing about peace between Turkey and Italy. A report from Saloniki also conveyed the information that the general terms of a settlement between the two countries would be the termination of hostilities.

An official communication issued in Rome says responsibility for the duration of the war depends on Constantinople. It adds that Italy is disposed to treat for peace, but will not allow Tripoli to be made an international question.

TURKEY PROTESTS

LONDON, Friday.—The Turkish Minister at Cetinje has strongly protested against the concentration of Montenegrin troops on the Albanian frontier, and has demanded that it be stopped, according to a despatch received here to-day from Constantinople by a news agency.

TELLS OF WASTE
IN PENCIL STUBS

Finds That Every Year More Than 13,000,000 Feet of Lumber Is Tossed Away.

More than 13,000,000 feet of lumber is thrown into waste paper baskets every year, is the statement made in a lecture by Professor E. C. Haller, head of the botany department at Central High School, Kansas City. This enormous waste results, he said, from discarding pencil stubs used in the manufacture of pencils every year in the United States. He declared, "At least half of each pencil is thrown away because it has poor lead or is too short. Think how the conservation of our forests would be promoted if every person would be more careful in the use of pencils."

SAYS NEGRO ISSUE
IS DYING NATURALLY

Figures Offered to Support Assertion That Negro Problem Is Going to Solve Itself.

While the negroes constituted 35 per cent of the South's population in 1880, they had shrunk to 25 per cent in 1900. Part of this falling off, says Leslie, has been due to the migration of negroes from the South to the North and the West in the interval.

In only two States—South Carolina and Mississippi—do the blacks now outnumber the whites, and from the proportionate growth of the latter in the last twenty or thirty years they will outnumber the blacks in those States long before 1920 is reached. Thus the negro problem is solving itself.

GERMANY HOPEFUL
OF PULP DECISION

Defers Action, Believing Congress Will Extend Exemption Enjoyed by Canada.

BERLIN, Friday.—The controversy concerning paper pulp duties is occupying the close attention of official circles here. It is understood, however, that Germany has not taken any steps in the matter, and is waiting in the hope that the United States Congress will extend the exemptions now enjoyed by Canada. Germany might, it is thought, in the last resort appeal to the Hague.

No communication whatever on the subject has yet passed between the German Foreign Office and Washington or the American Embassy here.

SAY KAISER WAS
OPPOSED TO WAR

LONDON, Saturday.—Lord Lansdale, in an interview printed to-day in the Daily News, said that he could not say whether the Kaiser was coming to England soon, but he hoped to see him here this year.

With reference to Anglo-German relations, Lord Lansdale said he believed it would take some years to live down the feeling brought about by the Moroccan situation, and if the Kaiser had not been rescued from the first not to have war it would have been difficult for any Cabinet to have resisted. But the Kaiser, Lord Lansdale added, is above all a man of peace and has a horror of war and was actuated by the friendliest feelings toward England.

AMERICAN FINANCIERS

ANOTHER BIG STRIKE
MENACES ENGLAND

LONDON, Friday.—While the prospects of a settlement of the cotton strike are considered improved to-night, another labor trouble is threatening in the shape of a national strike of miners, who desire a minimum wage.

A ballot of the miners will be taken within the next week to decide whether they shall give notice that such a strike be declared on March 1. The leaders of the miners' Federation are against a walkout, but it is predicted they will be overruled by the men. Mr. William Abraham, a member of Parliament, says a strike would give the American coal mine owners an opportunity for wholesale exports to England.

Sir George R. Asquith, the Board of Trade mediator in the settlement of industrial disputes, conferred to-day with representatives of the cotton mills and their employees in an endeavor to bring about peace in the cotton mill lockout. The conference was productive of a basis of agreement which, however, requires ratification by the masters and the unions.

HERR VON ARKOV
REPLIES TO WIFE

HINT OF DIVORCE SUIT

Solicitor Declares Proceedings Have Been Instituted in Hungary, Herr Von Arkov's Home.

SPECIAL DESPATCH TO THE HERALD VIA COMMERCIAL CABLE COMPANY'S SYSTEM.

HERALD BUREAU, No. 10 FLEET STREET, LONDON, Friday.

Herr Richard von Arkov emphatically denied to-day the statements made by his wife and her father to the New York press.

Herr von Arkov when seen at his club, the Wellington, admitted that certain money had been given to him on his marriage to be invested for the benefit of his wife and himself. Other money referred to by his wife was a legacy from her mother, and Herr von Arkov asserts that he has placed a large portion of this in the hands of the Public Trustee of London. He says that official is to pay her an income from it in half yearly instalments.

"I never squandered my wife's money," he said, "but she lost \$100,000 when we were living in Paris. Then I sent her for a long voyage."

Through his solicitor Herr von Arkov denied that he is a dentist, showing a diploma as a doctor of law and politics from the Royal University of Hungary, at Budapest, in which, he says, his father is a professor of surgery. The solicitor also asserted that his client had served in the Hungarian Parliament and had been vice secretary of the Hungarian National Agricultural Society.

"I never was a clerk in a tobacco shop," said Herr von Arkov, "but was secretary to Mr. Duke, head of the tobacco combination. I have never claimed the title of baron, but am of noble descent and am entitled to the word 'von' before my name and to use a crest."

Mr. Smalley, of the firm of Roscoe, Field & Co., solicitors, declared to-day that Herr von Arkov had instituted divorce proceedings in Hungary. Herr von Arkov said that finally when his matrimonial difficulties are settled he intends to return to Hungary and re-enter politics.

There will be hockey games for the men and prizes for fancy skating for the women, many of whom have expressed their intention of entering the lists.

The Kipling of the Species.

When the music is on vacation and the rhymes are slow to come, And the poet realizes that his best is pretty bum; When he feels that his ideas are becoming worn and stale— Then the Kipling of the species helps create a lot of mail.

The rhymer writes a parody on "If" or "Mandalay."

On "Danny Deever," "Gunga Din," "Screw Guns" or "Birds of Prey." Then sends it to an editor in hopes he'll make a sale.
